

# Grow your workforce to grow your business

Whether you want to offer effective learning to your people, nurture employee talent & develop your future high performers or build & maintain better teams we provide you with the right mix of technology, content and services that will meet your needs.

## ATC Human Capital Management Solutions & Services

Since 2001, our business unit HCMS ([www.intarget.gr](http://www.intarget.gr)) offers learning and talent management solutions and services for banking, retail, oil & gas, pharmaceutical companies as well as educational organizations and government; enabling them to develop their most important asset, their people.

**inlearn**

We provide Learning Management Systems (LMS) to our customers for blended learning, collaboration, testing & assessment, certification management, learning resource management and people administration.

**inclassroom**

Through an online virtual learning environment we offer our customers all the right tools for live online learning, collaboration, test & assessment.

**inmeeting**

We provide our customers with an easy-to-use web conferencing and collaboration solution for virtual meetings and online presentations.

**intalent**

ATC's talent management solution helps you design and implement effective workforce plans, succession plans, performance reviews and development plans and many more.

**inservices**

We provide value-added services to our customers that include project management, implementation, integration, support, training, eLearning courseware development services, interactive eBook design and publishing.

**incollege**

ATC's unified learning solution which offers blended learning capabilities and administration services to colleges and educational organisations.

**injobs**

A CV & job opening management solution that helps organizations to manage CV data, post job openings and provide advanced search capabilities as well as administration features for the evaluation process of candidates.

## Benefits of Human Capital Management Solutions by ATC

**Working together to achieve outstanding results.** We offer you expert insight; proven methodologies and practical tools that help you design and realise your solution. We also provide the highest standard of software and user support through our operations department. In this way we aim to ensure that, from day one, you reap the maximum benefits from your investment and achieve your objectives.

**Works the way you do.** Our solutions can be easily adapted to work the way you do, so that you can make your learning and talent management processes more efficient and accurate.

**Convert or create learning content with interactive elements.** We offer instructional design and content authoring services that help you create your own library of eLearning courses and reduce the cost of your training budget by converting face-to-face training material to engaging eLearning content.

**Grows with your needs.** Our solutions can be scaled to meet your business demands. Start off with learning and move methodically to other modules like performance, talent, collaboration, recruiting and compensation management.
